

launch\_threads

```
graph LR; A[launch_threads] --> B[launch_threads_helper]
```

A diagram illustrating a function call. On the left, a gray rectangular box contains the text 'launch\_threads'. A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'launch\_threads\_helper'. Both boxes have a thin black border.

launch\_threads\_helper
