

ParallelManager::Parallel
Manager

```
graph LR; A[ParallelManager::Parallel Manager] --> B[ParallelManager::reset]
```

A diagram showing a call from a class to a static method. On the left, a gray rectangular box contains the text 'ParallelManager::Parallel Manager'. A blue arrow points from the right side of this box to the right side of another rectangular box on the right. This second box is white with a black border and contains the text 'ParallelManager::reset'.

ParallelManager::reset
